

Warranty for Major John Deere Reman or Reconditioned Powertrain Components

The warranty coverage described below is provided by Honnen Equipment Co. to the original purchasers of components designated as John Deere Reman products by John Deere, or reconditioned Major Power Train components. John Deere and Honnen Equipment warrant these parts to be free from defective material and workmanship, under normal use and operating conditions, for a period of twelve (12) months unlimited hours, after the installation and delivery to the initial customer.

Remaining John Deere warranty coverage applicable to a used John Deere Reman product is transferred to a subsequent purchaser of the product only if the subsequent purchaser requests warranty transfer from Honnen Equipment before the product's John Deere Reman warranty coverage expires.

MAJOR COMPONENT SERVICE WARRANTY FOR:

Basic Engine, Torque Converter, Transmission, Differential & Final Drive components only.

This warranty is coverage of both parts and labor for covered repair or replacement. Warranty repair must be performed by Honnen Equipment Co. and/or in a Honnen Equipment Co. facility during normal business hours. Honnen Equipment will use only new or remanufactured parts or components, furnished or approved by John Deere to accomplish the repair under this warranty. Parts replaced under this warranty are warranted for the remainder of the warranty period for the covered major component.

LIMITATIONS AND EXCLUSIONS: Honnen Equipment and John Deere obligation of this Warranty for collateral damage caused by John Deere Reman components failure will be covered at 100%. Honnen Equipment Co. reserves the right of inspection and investigation in determining any claim of loss related to a failure deemed to be warrantable. Honnen Equipment Co. is not obligated under this Warranty to make any repairs or to replace any parts from normal wear, lack of reasonable and proper maintenance, failure to properly following operating instructions, misuse, lack of proper protection during storage, vandalism, the elements, collision or other accident or any failures caused by any use or installation which Honnen deems to be improper.

Honnen Equipment is relieved of its obligation under this warranty if service (other than normal maintenance and replacement of service items) is performed by someone other than Honnen Equipment, or if the product is modified or altered in ways not approved by John Deere.

This warranty does not cover any costs to the owner and/or user while the equipment is out of operation or any other and all subsequent damage to the equipment and/or other property and/or person. Honnen Equipment Co.'s obligations do not cover costs for transporting the covered equipment to the repair facility nor does it cover any associated costs such as but not limited to travel time, mileage, overtime labor, or freight charges.

CUSTOMER RESPONSIBILITIES: Customer is responsible for notifying Honnen Equipment Co. immediately of any suspected problem and giving timely notice of warrantable failure and promptly making the product available for repair.

Customer must comply with all manufacturers' recommendations for lubrication and maintenance service. Customer is required to validate warranty with an acceptable oil sample that meets cleanliness specifications. Failure to provide the required oil samples, completed paperwork, or failure to meet the sample cleanliness guidelines will result in a voided component warranty. The customer is responsible for taking samples at the required intervals and for sending those samples to the Honnen Equipment's oil lab for testing to maintain coverage provided in this warranty. The cost of the Fluid Analysis sampling is a Customer expense.

Engine, Differential and Final Drive: First oil sample must be taken at the end of 50 hour of operation and continuing at manufacturer's recommended intervals.

Transmission and Torque Converter: First oil sample must be taken between 8 and 10 hours of operation and continuing at manufacturer's recommended intervals.
